Libres de PVC / PVC Free

El cloruro de polivinilo (PVC), conocido comúnmente como “vinilo” se ha convertido en uno de los tipos de plásticos más utilizados. Se emplea en cientos de productos. El PVC puede ser versátil pero un tanto perjudicial para el medio ambiente.

En esta transición industrial, se ha descubierto que se puede reemplazar el PVC por materiales más seguros en prácticamente todos los casos. Gabol apuesta por esta tendencia responsable con el medio ambiente desarrollando nuevas líneas libres de PVC.

Polyvinyl Chloride (PVC), commonly known as “vinyl” has become one of the most widely-used plastics in hundreds of products. While it is a versatile material, it can also be harmful to our environment.

With today's industrial innovations, PVC can now be replaced in almost all products by new materials which are safer for our planet.

Gabol believes in the importance of respecting the world's environment, and has created new collections which are 100% PVC-free.

Impermeable / Water resistant

Apostando siempre por la mejora continua de nuestras colecciones de textil, en Gabol hemos diseñado mochilas con tejidos y cremalleras impermeables, capaces de resistir y repeler cantidades de agua equivalentes a lluvias de intensidad media; manteniendo seco el interior y sus pertenencias.

Always betting on the continuous improvement of our textile collections, in Gabol we have designed backpacks with waterproof fabrics and zippers, capable of resisting and repelling quantities of water equivalent to medium intensity rain; keeping the interior and its belongings dry.

Anti-RFID / RFID blocking

El sistema RFID de transmisión de datos inalámbrico supone un gran avance tecnológico, pero existe el riesgo de que nuestros datos puedan ser interceptados por terceras personas. Gracias al bolsillo anti-RFID, las tarjetas de crédito quedan completamente aisladas de posibles lecturas no deseadas, evitando el robo de dinero y datos personales (de 10MHz a 3 GHz).

The RFID wireless data transmission system is a technological breakthrough, but there is a risk that our data may be intercepted by third parties. Thanks to the anti-RFID pocket, mobile phones and credit cards are completely isolated from possible unwanted readings, avoiding the theft of money and personal data (from 10MHz to 3 GHz).

ADAPTACIÓN – CREATIVIDAD – INNOVACIÓN – COMPROMISO

Nuestra filosofía de empresa está totalmente orientada hacia el cliente. No deseamos compradores esporádicos sino colaboradores a largo plazo. Nuestras máximas son las siguientes:

En un ámbito de economías cada vez más interrelacionadas, somos plenamente conscientes de la necesaria ADAPTACIÓN a los diferentes mercados, sin olvidar nunca que calidad y competitividad son y serán, para nosotros, aspectos siempre prioritarios.

La capacidad CREATIVA e INNOVADORA de nuestro departamento de diseño queda patente en el lanzamiento de colecciones totalmente renovadas en cada campaña. Colores, formas, estilos, tejidos, etc.: todos los elementos son re-estudiados anualmente para intentar estar siempre a la vanguardia del mercado.

Nuestro COMPROMISO es seguir trabajando para todos, desarrollando nuevos productos e intentando mejorar el servicio; en definitiva, orientando todos los efectivos de la empresa para satisfacer las necesidades de nuestros colaboradores.

Como todos los años, les presentamos nuestras novedades para la próxima temporada. Esperamos fervientemente sean de su agrado y quedamos, como siempre, a la espera de sus sugerencias para nuestro próximo catálogo.

ADAPTATION – CRÉATIVITÉ – INNOVATION – ENGAGEMENT

Notre entreprise se consacre entièrement aux clients. Cette philosophie nous enmène à rechercher la fidélisation à long terme de tous nos collaborateurs grâce aux points suivants:

Au sein d'un environnement de plus en plus globalisé, nous sommes pleinement conscients de la nécessaire ADAPTATION à chaque marché; sans jamais oublier que qualité et compétitivité sont et seront toujours des valeurs universelles.

La capacité CRÉATRICE et d'INNOVATION de notre département design est prouvée à chaque saison par le lancement de nos nouvelles collections. Couleurs, formes, styles, tissus, etc.: tous les éléments sont réétudiés chaque année pour essayer d'être toujours à l'avant-garde du marché.

Notre ENGAGEMENT est clair: poursuivre notre travail, développant de nouveaux produits tout en améliorant nos services. Tous les efforts de notre personnel sont consacrés à satisfaire les besoins de nos collaborateurs.

Une fois de plus, nous désirons vous présenter les nouvelles collections pour la prochaine saison. Nous espérons sincèrement que celles-ci seront de votre intérêt et nous restons, comme toujours, à l'attente de vos suggestions pour notre prochain catalogue.

ADAPTING – CREATING – INNOVATING – UNDERTAKING

Our business thinking is totally customer oriented. We are not looking for casual customers but for long term business relationships. The main points of our thinking are as follows:

We realise that ADAPTING to new markets will be vital as closer and closer links develop between individual national economies. But we do not lose sight of the fact that quality and remaining competitive are our major priorities.

Our Design Department is constantly CREATING and INNOVATING, launching new collections every season. Colours, shapes, styles and fabrics are re-examined annually in an effort to stay at the cutting edge of the industry.

Our UNDERTAKING is to continue to invest our best efforts in our work, to go on developing new products and improving our service. In short, we are putting our all into meeting the needs of our business partners.

These are our new designs for the coming season. We hope you will like them and look forward to receiving your suggestions for our next catalogue.
