Inspired, designed  
and made in Spain

new  
garden  
be happy

Newgarden emerged by the sea, lying on the beach, where the sun and waves were the protagonists, transmitting peace and happiness. A feeling that will fill any space and connect it with the most pleasant part of the day.

Light, colour, design and sound - a different way of seeing life with a Mediterranean touch.

## Newgarden Studio

The design is something complex, unique and unrepeatable, arising from an idea with a touch of heart. At Newgarden we create our designs until they become a member of our family. Each and every one of our products receives the greatest attention from our designers and engineers, making them ahead of their time, innovative and, above all, original.

*Valerio Fumella*

Born in Tuscany, Valerio has always been closely influenced by the Mediterranean, and that is reflected in each of his designs. He has proven to be one of the most innovative international designers.

At Newgarden we have had the pleasure of collaborating with him to create unique and original products with a Mediterranean touch.

**achodoso®**

Difference is clearly Achodoso's key to success. Two young product design students, creating innovative and, above all, simple products. That's why at Newgarden we are delighted to have collaborated with them designing Helga.

*we are Newgarden,
