Tarkett vinyl, the easy deco solution

Vinyl ['vainil] n.: Vinyl is a modern and affordable solution. It's easy to live with, to install and to maintain. It's also comfortable and offers endless design possibilities for all tastes. Vinyl comes in many different formats (rolls, mini-rolls, planks and tiles!) and is suitable for every room in the house. Last but not least, it is respectful of the environment.

└ Endless design possibilities

From wood and stone imitations inspired by nature, to flashy coloured designs for energetic interiors: Tarkett vinyl offers all options!

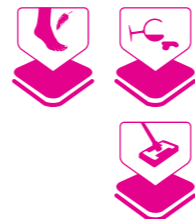

└ Comfortable flooring

Vinyl is a comfortable flooring solution. Thanks to its thermal resistance, it brings underfoot comfort. It offers acoustic comfort through its good sound absorption. It's also safe and hygienic with ranges offering anti-slip properties.

└ Easy to live

It goes without saying that vinyl is also an easy to live with flooring. Its great resistance to stains, marks and moisture makes it an ideal choice for easy maintenance. Save time on cleaning to spend it with your family!

└ Easy to install & to change

Vinyl is all about making things easier. In new houses or renovations, it's really easy to install as it can be laid in a floating manner in most cases. The variety of formats will for sure bring the option that suits you best (large, small, rolls or tiles and planks...). And when you want a new look for your house, it's also easy to remove. And to change with ... a new vinyl! There is no need to cut doors or wait after installation, you can walk straight away in your new interior!

└ Sustainable

Last but not least, because we care for the environment at Tarkett, our vinyl floorings are respectful of our planet. And that's true from the materials we use to produce the flooring, via the plants in which they are produced, through their very low emissions up to their full recyclability. Find out more on page 15.

And more! Dedicated solutions for specific needs

Renovation

With its textile backing floors and its floating tiles and planks, Tarkett offers ideal solutions for renovation. Changing a room's use or decoration or protecting your flooring in a flat you want to rent has never been so easy! Check our Tarkett 280T (page 62), Design 220T (page 104) and Starfloor Connect (page 36) ranges to choose which one best suits your needs.

- > little or no sub-floor preparation
- > easy installation
- > comfortable solutions.

Wet rooms

Tarkett vinyl offers all the qualities you need in wet areas. It's resistant to water, it's resistant to stains and it's easy to maintain. Then choose a thicker flooring to bring extra comfort -for example in your bathroom or a thicker wear layer for a greater resistance to wear and scratches - for the entrance for example and all these floors come in so many design you'll always find one to match your taste!

See page 80 for an example of bathroom designs.

Vinyl is design

You care for style and fashion? Check our Design 260 concepts! Developed in line with the latest trends, there's a vinyl flooring to match every taste (see pages 78 to 91). Design is also about formats. Check our Floor in a Box solution! It's a little vinyl roll which allows you simply and quickly to change your decoration in just a couple of hours (see page 16).

Kids & teenagers

Colourful and stimulating for the little ones, trendy and original for teenagers, Design 300 (page 92) is the answer for the 'kids' spaces.

A great solution for playing and living, it is comfortable and it will resist to toys, pens, roller-skates and more. And at the end of the day, it's so easy to clean, make it the ideal hygienic solution!

Intense traffic areas

For those spaces where there is more traffic, at home or in professional areas such as shops, little offices, medical offices... Tarkett offers dedicated solutions. Reinforced products, with great wear layers will withstand heels, castor chair wheels, moisture and the daily comings and goings of people.

Check our Tarkett ranges, pages 44 to 72.

Tarkett design expertise for the best decoration solutions.

An international Design Center

perfectly in touch with the latest trends.

Our designers continually search out the designs of today and tomorrow through visiting international design fairs - to get a range of inspirations and keep ideas fresh and up-to-the-minute.

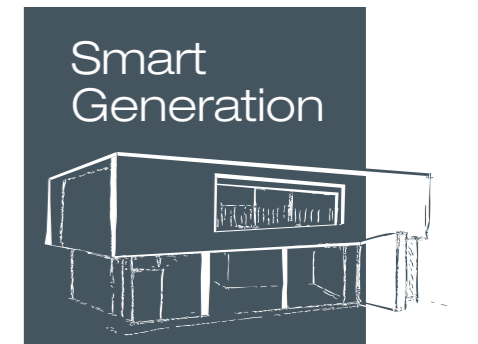

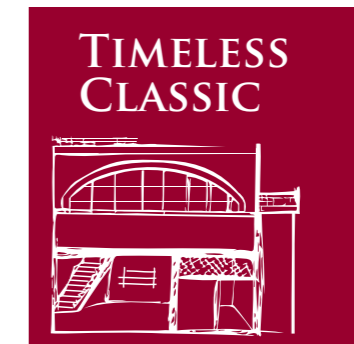

They also commission research and analyse socio-cultural trends to understand how to respond to people's needs and contribute to their well-being.

Valérie is Design Manager for our residential solutions.

"Creating designs aligned with the latest trends really matter. It keeps me **close to consumers** - who are starting point of our design reflection.

For our 2013-2014 collections, we have identified 4 trends to create modern and comfortable interiors: Timeless Classic, Creative Lab, Natural Care and Smart Generation".

Trends are inspired by wider design approaches, and each is unique so that every individual can **express his or her own personality!**

And working with vinyl flooring brings a freedom in design. The material is so flexible - **there are almost no limits to creativity!**

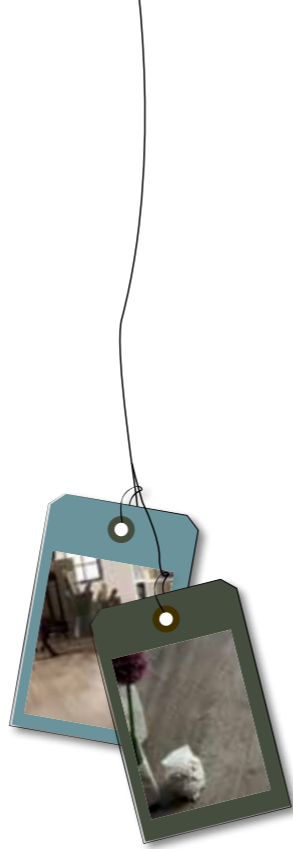

You can **play with colours**, surface **effects**, **shapes** and **formats**.

Inspirations

TIMELESS CLASSIC style

Our home

is our heritage and we intend to pass it down to future generations – through memories, travel souvenirs, literature we enjoy to read, and portrait pictures of our ancestors.

Express yourself with a refined sense of class and humour, in dandy style, and you'll create a reassuring, comfortable and classic atmosphere.

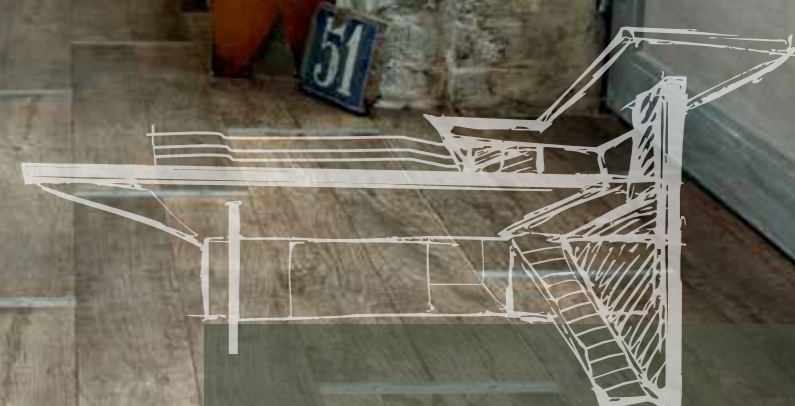

Evoke roots, rituals and memories.

PLAY WITH MASCULINE COLOURS

Creative Lab style

Homes

where we want to combine contemporary styling with a nostalgia for traditional arts and crafts. A way to explore the playful juxtaposition of new and old with the beauty of do-it-yourself. It's self-design with a spirit of recycling cloaked in tones of warm wood and quirky colours.

Give a second life to objects.

Re-use, recycle, refurbish. Customize, personalize, create a unique universe!

Natural Care style

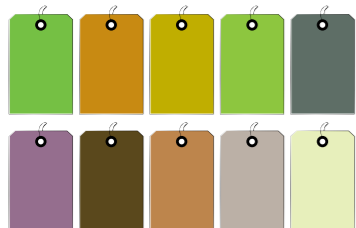

Our home should be a healthy resource for comfort and protection. The purity of nature feels like a second skin and transforms your home into a sanctuary from the stresses of daily life. The colours are calm, inspired from nature. It's a return to simplicity and harmony, a dream of lightness and well-being.

Pure, soft, delicate
Minimalist, harmonious, relaxing

A warm range of colours inspired by nature

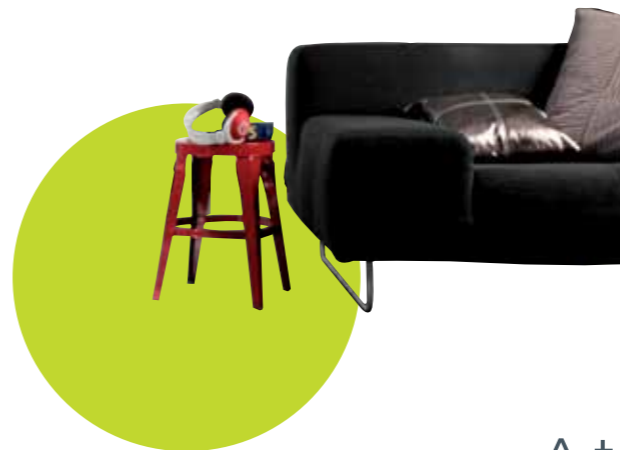

Smart generation style

Our home is in touch with the world, mobile yet always synchronized with our friends and family. Evolving, in tune with our desire to experience an increased reality, promoting new technologies to facilitate interactions with our home.

Flexibility, modularity, technology

➤ A tonic and graphic range!

Tarkett vinyl, solution for all the rooms of the house

No project is the same; and people's needs and tastes differ. That's why Tarkett offers a range of flooring solutions adapted for each room and lifestyle.

Our floors are:

- Functional** > meeting functional needs like durability and resistance
- Sensorial** > enhancing well-being through comfort and inspiring colours and designs
- Ecological** > contributing to better indoor air quality and reducing use of water and detergents for cleaning.

Think about these criteria when choosing your flooring:

- Style & function
- Resistant to marks & scratch
- Comfort & conviviality

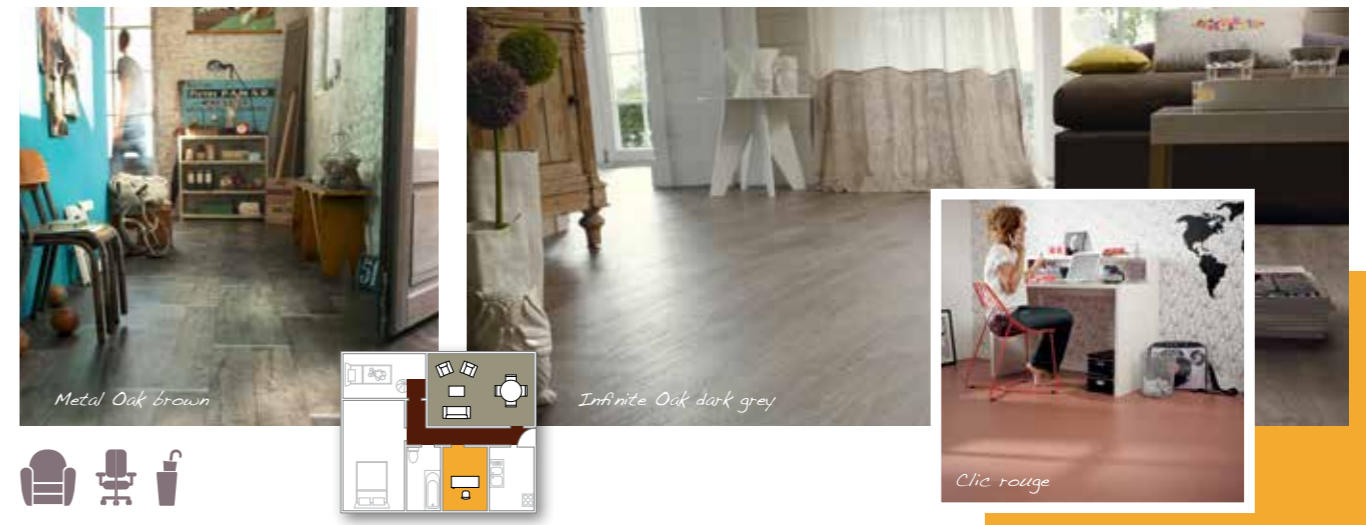

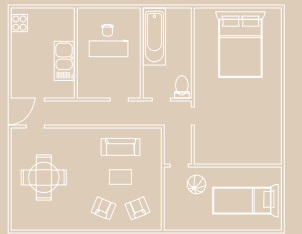

- Hygiene and safety
- Resistance to spills & stains
- Water & slip resistance
- Comfort and cosiness
- Style & design

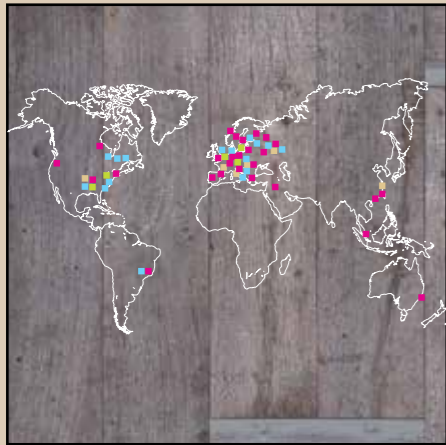

- Comfort
- Thermal insulation
- Coziness
- Kid-proof

Tarkett vinyl, a vision for flooring

Why Tarkett?

A world leader in flooring and sport surfaces.

With over 130 years of experience in creating safe, sustainable and inspiring flooring solutions, Tarkett enhances people's quality of life every day across the world.

Flooring solutions that make a difference.

No other flooring manufacturer offers as large a range of different flooring types in as many countries as Tarkett.

This broad scope enables us to recommend the perfectly adapted solution for each user.

By always thinking in terms of solutions, Tarkett is able to anticipate future needs and respond with the innovative flooring products of tomorrow.

Staying a step ahead, matching styles and tastes to different needs, maximizing performance: that's the Tarkett difference.

All Tarkett products are made in ISO 9001 and ISO 14001 certified facilities to the highest quality, safety and environmental standards.

At Tarkett, sustainability isn't just a theory but something we put in practice everyday in the way we design and make our products. Tarkett has a long history of developing products that are good for people and the environment.

We have adopted the Cradle to Cradle approach from product design to end-of-use to ensure that flooring becomes the beginning of something new again. That means no waste, just nutrients for new products. This approach helps us preserve our planet's resources and ensures a better quality of life for future generations.

The environment is a real concern.

We focus on using natural and renewable raw materials in our products. They are safe for people and the environment and are capable of being reused as industrial or biological ingredients.

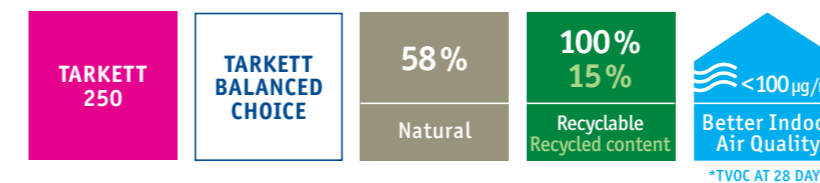

Your health is also important to us.

That's why our floors have extremely limited emissions.

We've focused on indoor air quality because it has a direct impact on human health. Our flooring solutions have emissions below current European standards or even below quantifiable level, contributing to better interior air quality.

This makes Tarkett an industry reference for VOC reduction.

We do what we say and we say what we do: you will find our environmental tag on all our products.

Tarkett's Balanced Choice tag provides simple and transparent information for our users about the content of our products and how they contribute to sustainable development.

This tag, marked on all Tarkett product information, uses percentages to show:

- the portion of raw materials that is natural and renewable
- how much recycled material it contains
- the product recyclability
- the level of VOC emissions (TVOC in µg/m³ after 28 days)

ECO-FRIENDLY FLOORING.

Floor in a box is:

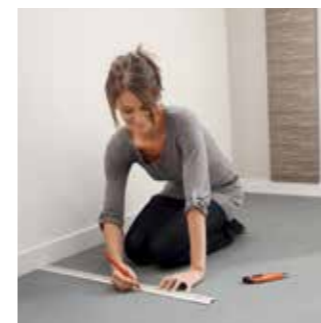

- recyclable
- manufactured in Europe in plants with an ISO 14001 certified environmental management system and a commitment to continuous improvement in environmental performance

LITTLE PREPARATION

- **What you will need:**
A tape measure, cutter and spatula measuring 22cm minimum (and a pad or cushion for your knees).
- **Before installation:**
Ensure the surface beneath is clean, flat, smooth, dry and free of cracks. Store the boxes in the room for at least 24 hours before fitting.

EASY INSTALLATION

1

2

3

4

5

6

- 1 Identify and mark the centre point of the room by plotting two perpendicular lines on the floor. Draw a line at right angles to the adjacent wall along this central point.
- 2 Use the winder to unroll the product.
- 3 Place the beginning of the roll against the wall or along the drawn line.
- 4 Peel off 50 cm of the protective sheet and stick the beginning of the strip against the wall.
- 5 Cut the product using the special opening in the box.
- 6 When the whole of the strip is stuck down, cut off any excess using the spatula and cutter.
- 7 Matching profiles. Check page 150 for our accessories for a complete solution.

MAINTENANCE

Floor in a box is easy to maintain.

- Regular/daily cleaning with a vacuum cleaner.
- Weekly cleaning with mild floor cleaner.
- Do not use soft soap, linseed oil products or acetone.

UNIQUE MODULARITY: Starfloor

Discover the Tarkett modular vinyl solutions of the Starfloor collection

- > **Starfloor, design your own floor!**
The ultimate way to personalise your interior. Starfloor makes you the designer or your own floor by mixing and matching from a wide-ranging combination of planks and tiles decors.
- > **Starfloor Connect, just connect for a floating installation**
Starfloor Connect is a new and unique vinyl plank with a floating installation. Just connect the overlapping planks and you have a quick, easy and beautiful solution for your renovation.

Vintage Classique Trend Ceramic

CONNECT

Starfloor is where simplicity meets creativity.

Planks and tiles come in easy to carry boxes and with a self-adhesive backing that makes laying easy and intuitive. Each floor is 'made to measure' in design and dimension, so there is little waste. As all planks and tiles are highly resistant to stains and scratches there is minimal maintenance making Starfloor the ideal economic and ecological choice.

Starfloor Vintage

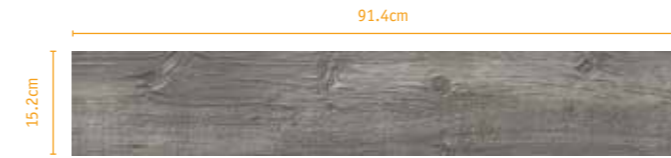

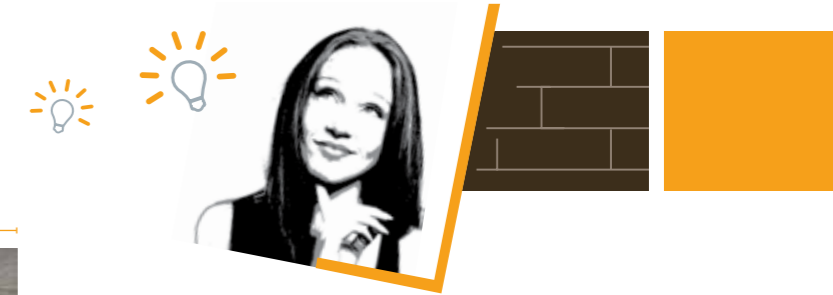

Beauty bestowed by time in an instant, with a range of worn oak looks in natural tones.

A patina of weather and age that suggests tradition and craftsmanship, with a deeply embossed surface that adds realistic texture.

Comfortable underfoot and sound absorbent, Extreme Protection treatment provides a surface 7-times harder than ordinary vinyl.

Design ranges

- BEAUTIFUL AND PRACTICAL
- DESIGNS FOR EVERY SPACE & TASTE
- COMFORTABLE YET RESISTANT

Tarkett's Design ranges come from the creativity of an international team with an eye on the future of flooring.

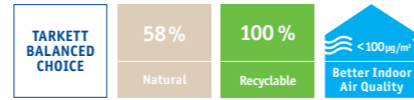

Sensorial effects in colour, patterns and surface texture bring ambiance and character to interior spaces.

Beautiful is also practical. These ranges have all the acoustic, thermal and underfoot comforts, plus durability and resistance for the daily demands of any lifestyle.

400 unique ideas to explore. An infinite number of possibilities to create.

What is vinyl?

Vinyl is comfortable, hygienic and very easy to maintain.

State-of-the-art technology in a few millimetres.

COMPACT PVC:

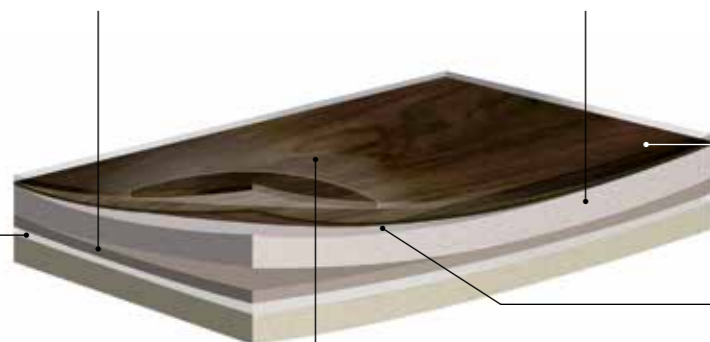

Gives additional indentation protection. Helps the product lay flat even if it is not fully glued

FOAM LAYER:

Adds warmth and comfort underfoot. Gives outstanding sound insulation

GLASS FIBER:
Prevents the flooring from expanding or contracting for an increased stability

PRINTED DESIGN:
Offers a large choice of colours and patterns

WEAR LAYER:
Protects the design. Improve durability

TEXTSTYLE BACKING:

Outstanding properties: it levels out the bumps and irregularities of the subfloor: no need for leveling! High sound impact insulation properties (18dB impact sound - ISO 717/2) and great comfort. An ideal solution for renovation.

PUR TREATMENT:

Extreme, Supreme. Protects against scratches, wear and stains for easier maintenance. Prevents from the visual ageing of your flooring.

Enhanced PUR treatment making your floor 7 times more resistant than a standard PUR.

Enhanced PUR treatment making your floor 4 times more resistant than a standard PUR.

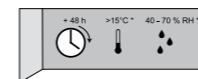

Tarkett vinyl is easy to install & to maintain

1 Prepare your subfloor

Before installation, your preparation is important.

The subfloor must be dry. If the subfloor is uneven, use a levelling compound. Note that Texstyle® floorings can be laid on subfloor with slight bumps and irregularities. Clean the subfloor thoroughly using water and a neutral cleaning agent; remove dirt and debris such as paint or plaster. The temperature of the room must be at least 15°C.t

2 Prepare your flooring

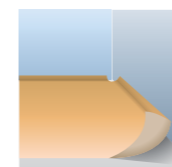

It is extremely important to acclimate your flooring to the room conditions: store your flooring in the room to be installed for 24 hours minimum at room temperature. Unroll and pre-cut your product before starting the installation. This could avoid a disappointment such as not having enough material.

3 Install your flooring

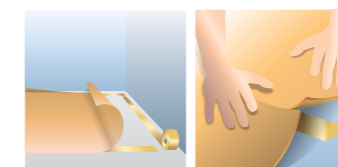

There are 3 installation methods

3a Loose installation

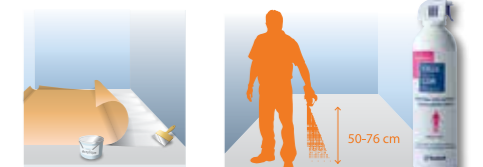

In small areas, you can just lay your vinyl floor on top. No need to glue: just unroll, cut to size, it's done!

3b Semi loose installation

For wider areas, use duct tape around perimeters to stabilise the flooring.

3c Glued installation

For areas bigger than 25m², we advise gluing the floor. We recommend the use of our practical and ecological spray glue : Tarkospray. You just stand, spray and glue the flooring. No tools, twice as fast as traditional glue, 4 times less glue!

When cutting the roll always allow an extra 15-20cm.
< 25m² : Loose installation > 25m² : Glued installation

4 Maintain your flooring

- After installation clean your flooring with hot water and a neutral cleaning agent and rinse it.
- Daily regular cleaning: sweeping or vacuuming your flooring is all it takes!
- Weekly regular cleaning: once a week or as often as required, use a damp mop or a floor cloth with warm water and a neutral cleaning agent.

5 And don't forget the skirtings for a perfect finish or your flooring

KS 61 the easy solution for a perfect finish.

KS 61, a flexible self-adhesive PVC skirting very easy to install. With its foam backing it adapts to uneven support and provides an aesthetic and totally sealed wall base protection. It's smooth finish makes it easy to maintain and it's guaranteed for 5 years.

ISF 60 the brand new solution for a perfect match.

ISF 60 is a brand new skirting support that is self-adhesive on both sides. To create your 100% matching skirting, cut a piece to dimension of your vinyl flooring, insert it in the skirting support and then stick it to the wall and it's done! Its flexibility allows it to be installed on uneven or rounded surfaces. With adaptable upper and lower lips, you have a sealed solution to prevent your wall base from water and dirt ingress. Your installation stays clean and beautiful longer and ISF 60 is guaranteed for 5 years!
