

THE I-SPEED LINE

The I-Speed line is something special for every road bike fan, but not only for them. The new season brings changes in the entire road bike collection: new designs, new shapes of the frames, better materials.

You can choose from five different specifications. The top model - I-Speed V has Shimano Ultegra Di2 drivetrain and HBC RRX Forty5 full carbon wheels. This is the lightest road bike that we ever made.

ROAD

THE GRAVEL ROADS

When the asphalt road ends, you need a bike that will be able to take you to the forest path and back on tarmac, Picton is the bike that will be able to meet this challenge. It is all about the adventures that you can make on your bike and HEAD Picton Gravel bike is waiting for it.

You can choose one of two specification variants with Shimano Tiagra 2x10 and Sram Apex 1x11 drivetrains. No matter the terrain, weather or location, our gravel bikes are ready to give you as much fun as possible on your every adventure.

When the asphalt road ends the adventure on a gravel bike starts.
