GALFER is a leading manufacturer of friction materials and components for braking systems for the automobile, motorcycling, and bicycle sectors.

Industrias GALFER began manufacturing brake pads and discs specific to MTB in 1998 developing them together in collaboration with leading european manufacturers of brake systems, and is also today, the only Spanish manufacturer of brake pads for bicycles. Almost 20 years experience in the MTB industry show that GALFER BIKE brake products are guarantee of quality. Currently Industrias GALFER still supplying brake pads and discs for the main world brands brakes.

Since our company was founded in 1952, we have been known for being at the forefront of innovation, quality and organization. Today we link our experience and tradition to new technologies, cutting-edge materials and the most advanced management systems.

All our products are strictly tested for quality to guarantee its safety. We are so committed with quality regulations that our quality controls exceed the ECE R-90 standards.

GALFER business philosophy is based on the values that led us to become a world leader in braking systems. There's only a thing that our brakes cannot stop: the speed at which we enter the future.

GALFER es una empresa líder en la fabricación de materiales de fricción y componentes de sistemas de frenado para los sectores de automoción, motociclismo y bicicleta. Industrias GALFER comenzó a fabricar pastillas y discos de freno específicas para MTB en el año 1998 desarrollándolas conjuntamente en colaboración con los principales fabricantes de sistemas de freno europeos, siendo además a día de hoy, el único fabricante español de pastillas de freno para bicicletas. Con casi 20 años de experiencia en el sector MTB los productos de freno GALFER BIKE son una garantía de calidad. Actualmente Industrias GALFER sigue suministrando pastillas y discos de freno para las principales marcas de frenos mundiales.

Desde nuestra fundación, en 1952, hemos destacado por estar en primera línea en cuestiones de innovación, calidad y organización. Hoy nuestra experiencia y tradición se unen a las nuevas tecnologías, los materiales de última generación y los sistemas de gestión más novedosos.

Todos nuestros productos se someten a un estricto control de calidad que garantiza su seguridad. Nuestro compromiso con la legislación en materias de calidad es tal que nuestros controles superan los estándares de la directiva ECE R-90 vigente.

El espíritu empresarial de GALFER se fundamenta en la apuesta por los valores que nos han llevado a consolidarnos como el referente internacional en sistemas de frenado. Lo único que nuestros sistemas no pueden frenar es la velocidad con que nos adentramos en el futuro.

Innovation has been GALFER driving force for more than 60 years.

In this extremely demanding market, we know that the only way of staying ahead our competitors and to continue being a world reference in the manufacturing of braking systems is to invest in continual improvement.

Our team at the R&D department combines their passion and enthusiasm with the latest technology to offer the best final product, with improved brake power, reduced wear, and less noise, preferred by major original equipment manufacturers (OEM).

La innovación es la fuerza motriz de GALFER desde hace más de 60 años.

En un mercado extraordinariamente exigente, sabemos que la única manera de mantenernos por delante de nuestros competidores y continuar siendo el referente mundial en sistemas de frenado es invertir en la mejora constante.

La pasión y el entusiasmo de las personas que integran nuestro departamento de I+D+i se combinan con la tecnología de última generación para ofrecer un producto final excelente, con una mayor potencia de frenada, un menor desgaste y el mínimo ruido, preferida por los principales fabricantes de equipos originales (OEM).

Quality management is essential for the evolution of our products. All pieces are tested under strict quality control measures to ensure the highest degree of safety and performance.

GALFER has obtained the ISO 9001 Quality certified. In order to stay up to date with the current trends and to address the needs of the sector, GALFER is in the process of obtaining the ISO/TS 16949 certification.

QUALITY POLICY

MISSION: To offer friction materials and components for comprehensive brake system solutions.

VISION: To become an international benchmark for braking systems.

VALUES:

- **INNOVATION:** Continual introduction of new technologies to offer improved products to the market.
- **ASSURANCE:** Offering solutions fitted to our clients needs and to complying with current laws in all our activities, as well as any other agreed requirements related to the management system.
- **CONFIDENCE:** By means of innovation and implementation of a quality management system based on continual improvement.
- **EFFICIENCY:** Encouraging teamwork and facilitating direct and customized attention to our clients and complying with all our products specifications.
- **SUSTAINABILITY:** Respecting the environment and minimizing the environmental impact.
- **SAFETY:** Investing and training to guarantee the maximum safety and occupational health.
- **ACCOUNTABILITY:** Ethical and responsible management in all our activities.

El Departamento de Calidad es clave en la evolución de nuestros productos. Todas las piezas se someten a un estricto control de calidad para garantizar su máxima seguridad y prestaciones.

GALFER posee la certificación de Calidad ISO 9001. Para no perder rueda con las tendencias actuales y asumir las exigencias del sector, GALFER está en proceso de obtención la certificación ISO/TS 16949.

POLITICA DE CALIDAD

MISIÓN: Ofrecer materiales de fricción y componentes para soluciones integrales de sistemas de frenado.

VISIÓN: Convertirnos en un referente internacional en sistemas de frenado.

VALORES:

- **INNOVACIÓN:** incorporación constante de nuevas tecnologías para aportar mejoras de productos al mercado.
- **GARANTÍA:** ofrecer soluciones ajustadas a los requisitos de nuestros clientes y cumplir con la legislación vigente en todas nuestras actividades, así como otros requisitos suscritos relacionados con el sistema de gestión.
- **CONFIANZA:** mediante la innovación y la implantación de un sistema de gestión de calidad basado en la mejora continua que garantice los resultados esperados.
- **EFICACIA EN LA GESTIÓN:** fomentando el trabajo en equipo y facilitando un trato directo y personalizado a nuestros clientes y cumpliendo todas las especificaciones de nuestros productos.
- **SOSTENIBILIDAD:** respeto al medio ambiente y minimización del impacto medio ambiental.
- **SEGURIDAD:** inversión y formación para garantizar la máxima seguridad y salud en el trabajo.
- **RESPONSABILIDAD:** gestión ética y responsable en todas nuestras actividades.

All GALFER products (discs, pads and brake lines) are designed and manufactured in our 6000 sq. meters factory at Granollers (Barcelona), next to the Circuit de Catalunya.

The production process begins in the R&D Department, responsible for launching new products. The materials are developed in our laboratories and then chemical and physical tests are conducted. Once this phase is completed and to determine their going into production further tests are conducted on a vehicle. The Department of Methodology designs the production processes with the Engineering Department. Finally, the Quality Department certifies the quality and reliability of our products according to ISO standards.

We are members of the FEMFM (Federation of European Manufacturers of Friction Materials), and we have worked together for the European Quality Manual of disk pads, drum brake calipers and clutches.

Todos los productos GALFER (discos, pastillas y latiguillos de freno) se diseñan y se producen en la fábrica de Granollers (Barcelona), unas instalaciones de 6000 m2 situadas al lado del Circuit de Catalunya.

El proceso productivo se inicia en el Departamento de I+D+i, que se encarga del lanzamiento de nuevos productos. Nuestros laboratorios desarrollan los materiales y los someten a pruebas químicas y físicas. Superada esta fase, se realizan las pruebas sobre el vehículo para determinar el paso a producción. El Departamento de Metodología diseña los procesos productivos en conjunción con el Departamento de Ingeniería. En último lugar interviene el Departamento de Control de Calidad, que certifica la calidad y fiabilidad de nuestros productos siguiendo las normas ISO.

Somos miembros de la FEMFM (Federation of European Manufacturers of Friction Materials), con la que hemos colaborado en la elaboración del Manual de Calidad europeo para pastillas de frenos de disco, mordazas de freno de tambor y embragues. La pasión y el entusiasmo de las personas que integran nuestro departamento de I+D+i se combinan con la tecnología de última generación para ofrecer un producto final excelente, con una mayor potencia de frenada, un menor desgaste y el mínimo ruido, preferida por los principales fabricantes de equipos originales (OEM).
