Wasserresistente HDF-Platte für den Einsatz in Bereichen mit erhöhter Feuchtigkeit.

Water resistant HDF coreboard suitable for installation in moist areas.

Support HDF résistant à l'eau pour des pièces à plus fort taux d'humidité.

Pannelli HDF di basso assorbimento d'acqua per l'impiego in aree con alti livelli di umidità.

Tableros HDF de baja absorción al agua para uso en áreas con altos niveles de humedad.

Placas HDF de baixa absorção de água para uso em áreas com elevados níveis de humidade.

endless

Fussbodenpaneelen mit Standard-Länge und Endlos-Effekt.

Floor panels with standard length and endless effect.

Panneaux de sol de longueur standard avec effet infini.

Pannelli da pavimento in lunghezza standard ed effetto senza fine.

Paneles de suelo con longitud estándar y efecto infinito.

Painéis para o chão com comprimento padrão e efeito infinito.

oversize

Übergrosse Paneelen für optische Highlights und schnelle Verlegung.

Oversize panels for visual highlights and quick installation.

Panneaux surdimensionnés pour un bel aspect visuel et une pose rapide.

Pannelli extra grandi per creare accenti ottici e per una posa veloce.

Paneles extragrandes para destacar elementos visualmente, de colocación rápida.

Painéis sobredimensionados para destaques visuais e rápida instalação.

synchronised

Synchronporen-Struktur für eine authentische Echtholz-Wirkung.

Synchronised grain structure for an authentic real wood effect.

Structure à pores synchrones pour effet bois véritable authentique.

Struttura a pori sincroni per un autentico effetto vero legno.

Estructura de poros sincrónicos para un efecto de madera genuina auténtico.

Estrutura de vasos sincronizados para um efeito autêntico de madeira verdadeira.

PROVENT

Multifunctional floor underlay | Support de plancher multifonctionnel | Tappetino sottopavimento multifunzionale | Base multifuncional para pavimentos | Base para pavimento multifuncional

DE PE Unterlage mit integrierter Feuchtigkeitsbremse und Zirkulationsrillen (Micropumping System). Unterstützt die Luftzirkulation unter dem Boden und verhindert Schimmelbildung.

EN PE underlay with integrated moisture barrier and circulation grooves (micropumping system). Supports the circulation of air under the floor and prevents the formation of mould.

FR Sous-couche PE avec système stop humidité intégré et rainures de circulation (Micropumping System) Assiste la circulation de l'air sous le sol empêchant la formation de moisissures.

IT Supporto PE con barriera antiumidità in PE e scanalature di circolazione (sistema Micropumping). Favorisce la circolazione dell'aria sotto il pavimento impedendo la formazione di muff.

ES Base de PE con barrera antihumedad integrada y ranuras de circulación (Micropumping System). Favorece la circulación del aire debajo del suelo y previene la formación de moho.

PT Base de PE com barreira antihumidade integrada e canais de ventilação (Micropumping System). Favorece a circulação de ar debaixo do pavimento e serve com prevenção da formação de mofo.

DE Unterlage aus physikalisch vernetztem PE-Schaumstoff mit integrierter Dampfsperre, die höchste Ansprüche bezüglich Gehschall- und Trittschalldämmung langfristig erfüllt und vor hohen Belastungen Schutz bietet.

EN Underlay made of physically cured PE foam, with an integrated moisture barrier and with protection against stress, which fulfills the highest requirements regarding footfall sound insulation.

FR Support en mousse PE physiquement réticulée avec parevapeur intégré qui répond à long terme aux exigences strictes en matière d'isolation phonique (bruit d'impact et bruit de pas) et qui offre une parfaite résistance aux charges importantes.

IT Tappetino in schiuma PE reticolata fisicamente, con barriera antivapore integrata, che soddisfa a lungo termine i massimi requisiti in termini di isolamento antiriverbero e anti-calpestio, proteggendo dalle sollecitazioni elevate.

ES Base de espuma de PE reticulada físicamente, con barrera integrada contra la difusión del vapor de agua, que satisface las máximas exigencias en cuanto a aislamiento frente al ruido de impacto y proporciona protección contra cargas importantes.

PT Base de espuma PE fisicamente reticulada, com barreira de vapor integrada, que satisfaz a longo prazo as exigências mais elevadas relativamente ao isolamento acústico de transmissão e ruído dos passos e oferece proteção contra esforços elevados.

Certification of Origin of Swiss Wood

WOOD

The «Certification of Origin of Swiss Wood» guarantees the Swiss origin of the wood used. It communicates the values positively connected with Switzerland towards its forests, their characteristics and processing methods. It also makes a firm statement about the important environmental issues and the general high standard of conditions surrounding the sustainability and use of Swiss Wood. All wood, which grows in Swiss forests and is processed in Switzerland or in the principality of Liechtenstein, is eligible to use the Swiss Origin logo. Although at least 70% of the wood must come from Switzerland, for products that require mixed sources of wood, it is possible for some of the wood (max 30%) to come from sources outside of Switzerland. However this is only permissible if the wood comes from comparable forestry/production regions, and is equipped with a fully traceable, controlled certification of origin. The utilization of the logo is available to all companies in the wood industry and associated business. However, a prerequisite to using this logo, is a fully documented system of inspection, and complete traceability through all process of the business. For more information please go to

www.lignum.ch

Kronoswiss® is here for you: In order to constantly produce our first class products, we will only use materials sourced from carefully selected environmental and replenishable sources. In obtaining our CO₂ reduced certification and in keeping with our companies philosophy, Kronoswiss® products have achieved the lowest possible CO₂ values.

Our commitment to the environment knows no bounds, and this is demonstrated through Kronoswiss® being one of the first chipboard manufactures to obtain FSC® status in 1997*.

Our environmental core beliefs and commitments, now and in the future, differentiate us from our competitors.

Swiss Quality demands an ongoing review and updating of all the tests and controls (ISO9001, ISO14001), so that we can confidently achieve our commitment to our customers and the environment.

* FSC®-products available on request
