Steel is an Italian company with a long family heritage. Situated in Carpi near Bologna and founded in 1999, it is owned and run by the Po family, who are the third generation to be involved in the production of range cooking equipment. The original company was set up by Angelo Po in 1922 and his craftsmanship in stainless steel helped produce the first hand made stoves and later, the production of high-quality appliances for restaurants.

Das Unternehmen Steel wurde 1999 gegründet mit dem Ziel, semiprofessionelle Hausgeräte zu entwickeln und zu vermarkten. Die Inhaberfamilie kann auf eine lange Tradition zurückblicken. La purezza dell'acciaio, lo slancio delle forme. Swing è l'ultima generazione del barbecue: potente come i suoi bruciatori in fusione di acciaio inox, equilibrato come il bruciatore ausiliario sul ripiano laterale che permette di cucinare salse di accompagnamento o contorni, mozzafiato come il coperchio coibentato a doppio strato di acciaio inox e provvisto di termometro per la cottura a forno di carni e panificati.

The purity of the steel, soaring lines. Swing is the state-of-the-art barbecue: powerful like its cast stainless steel burners, balanced like its side burner made to prepare dressings and side dishes, breathtaking like its double stainless steel lid with thermometer for gas oven cooking of meats and bakeries.

La pureté de ses lignes élancées Swing est un barbecue ultra moderne, puissant avec ses brûleurs en fusion d'acier, équilibré. Par son brûleur latéral idéal pour préparer des sauces d'accompagnement.

Stupéfiant comme son couvercle en inox doublé avec son thermostat de contrôle du four pour les viandes et pâtisseries.
